Pneumonia and Influenza Mortality for 48 Bour Period Reaches 233.

Health Comissioner Goes to Washington in a Search for Serum and Vaccine.

for the last forty-eight hours is 233, a similar period since the epidemic thorities. spread its tentacles about Chicago,

For the last twenty-four hours there | FLU GRIPS TOMBS; ported, with 69 deaths and 250 new cases of pneumonia with 63 deaths. In the previous twenty-four hours 50 deaths resulted from influenza and 51 from pneumonia, with 1.350 new influenza cases and 269 of pneumonia,

"I have made a canvass of seventy hospitals and find they have 1,454 empty beds which cannot be filled because there sufferers."

Additional measures to stop the epidemic have been taken by the Health Department in supplying pneumonia serum free to all physicians,

Dr. Robertson left to-night for Washington where he will have a conference with Surgeon-General Blue of the Amer-lean Health Service and Surgeon-General Ireland of the Army to learn if there have been any new serums, vac-cines or other remedial agencies used discovered, which will help to fight the present epidemic in Chicago.

According to Dr. Robertson there has

not yet been discovered a serum or vaq-cine which will cure influenza, although the best brains and the best laboratories in this country and the world are engaged in finding a remedy for this "most mysterious disease." Dr. J. O. Cobb, chief surgeon of the central department of the Public Health

Service, called on the commission to-day with samples of celluloid masks day with samples of celluloid masks designed by navy physicians at Great Lakes Training Station. Dr. Robertson at Dr. Cobb's request will make prac-tical tests of the usefulness of the masks.

#### \$500,000 VOTED FOR FIGHT ON INFLUENZA Senate Acts After Debate-

Overman Tells of Cure.

Special Desputch to Tun Bus. Washington, Jan. 26.—To meet the rational emergency which is seen in the sudden recrudescence of the influenza epidemic the Senate after considerable opposition passed a joint resolution ap-propriating \$500,000 for the use of the Public Health Service in studying the causes, modes of transmission, preven-

tion and cure of the disease. Senator France (Md.) called up the esolution, which had been on the calendar since October last, and urged its immediate passage in view of the serious character of the epidemic. Senator King (Utah) promptly objected, but agreed to withhold his protest until a communieation from the Secretary of the Trens-ury could be read.

tres and its expected rapid extension. He urged the importance of immediately providing funds for investigating the cause, mode of transmission and means

people and take over the duties which belong to parents, to local communities and to States."
Senator Smoot (Utah) warned the

Senate that if the money were appro-priated it would be spent chiefly in sending doctors on trips about the country, away from the constituencies they ought to be serving. "I think I am well within the facts." he said, "when I say that nothing in particular has been developed by the investigation except that the authorities have instructed people that they must be kept warm and must

"I have been informed," said Senator Overman (N. C.), "and I want to tell for the benefit of those investigating the subject that they have discovered a remedy for this disease in the mountains of North Carolina. I am informed that common baking soda will cure it, that many cures have been made with it and that as a result of using this specific they no longer have any deaths in that region on account of this disease. I presume they use a little moonshine along with it."

The appropriation was reduced to \$500,000 and the resolution passed.

#### SNOW PREDICTED FOR TO-DAY. Official Thermometer 7 Above Zero at 7 A. M. Yesterday.

New York has become so accustome to winter that it was not much disturbed yesterday morning when it learned that the official mercury had touched 7 above zero at 7 o'clock. It slid, slipped and floundered to its work over icy sidewalks. breaking a few of its bones, and in the afternoon got the cheerful information that the basis of ice and snow might be increased by another snowfall, not a snowstorm, to-day,

The prophets were particular in fore-casting merely a snowfall, as there was nothing in the nature of aerial upheav miles of this neighborhood. The atmos pressure being up to \$2.63 inches last night. The temperature rose to 25 at 8 o'clock and it is likely to be much

warmer to-day. Liner Lenape Fast Off Florida. JACKBONVILLE, Pla., Jan. 26.—The fliyde Line steamer Lenape. New York via Charleston for this port, ran aground

they are 'cumbered about with many

"At school it is a rule that every child said Dr. Robertson, the Health Commissioner, to-day. "I was not able to get a single graduate nurse from all the Chicago hospitals to take care of severe cases of pneumonia in the homes of the sufferers."

"At school it is a rule that every child be examined by the teacher every day and if there are signs of sickness they are sent at once to the school nurse. If the child is sick it is taken home by the Health Department, which determines whether home conditions are proper for the isolation and treatment of the disease. If not it is put in a lossifial."

#### Copeland on Whiskey.

Dr. Copeland has been attributed with saying whiskey is good for influenza. He issued the following statement: "There have been so many distorted statements made by newspapers outside the State and abroad regarding my attitude toward the use of whiskey in influenza that I consider it necessary to make a formal statement."

make a formal statement.
"All through the epidemic of 1918 and
up to the present moment I have never
recommended whiskey as a preventive of influenza. Personally, I do not con-sider it of any value in the prevention and treatment of influenza. There are certain stages of pneurionia where stim-ulation is necessary and many reputable physicians look upon whiskey or brandy as the best drug for this purpose."

The Health Department has had 20,

eee 'ion spitting' signs printed and will place them in all subway and elevated stations, theatres, public places, &c. It s also circulating literature to educate the people in the proper precautions eningt infection. -The Street Cleaning Department is

## NO COURT RULING ON JERSEY LEGISLATURE GETS UTILITY BILLS BOOZE UNTIL APRIL Suffs and Antie Hold Demon-

Supreme Tribunal Not to Ac in Rhode Island Case Before Recess.

Amendment if Decision Is Favorable.

Special Bespatch to THE SUN. Washington, Jan. 26 .- The validity of the constitutional prohibition amendment and the Volstead law enforcing it will not be determined by the Supreme Court before April at the earliest it became certain to-day.

In the court to-day the Government began its attack against the efforts of Rhode Beland to have the Eighteenth Amendment and the Volstead law declared invalid. Solicitor-General King filed a motion with the court asking dismissal of the bill of complaint of Rhode Island against constitutional prohibition.

Arguments are expected to determine the validity of the constitutional drought. These, Mr. King said, would not be made until after the February rocess of the court, as Herbert A. Rice, Attorney-General of Rhode Island, had informed the Government attorneys that he would not be ready to argue the motion this week. Argument must thus go over until after March 1, and the most expedition possible that could be granted would not assure a decision before April 1.

The court also agreed to advance the arguments on the appeals from Ohio which will determine whether a State by referendum can override the action of State Legislature in ratifying the prohibition amendment. The date set for the arguments was March 1. Ten States have the referendum, and should the court hold that ratifications can be with-drawn by this means the number would be sufficient to repeal the amendment.

#### FREIGHTER BENONI BURNING. Hold in Which Fire Is Confined I Being Flooded.

Loynor Jan. 26 .- The fire in No. 1 hold of the American steamship Benoni now at Gravemend, which was reported Saturday, is still burning, according t advices received here to-day. The holwhere the fire is located is being flooded.

The Benoni, a 6,330 ton freighter, is owned by the United States Shipping Board, and is operated in the Oriental trade by Barber & Co. of New York.

#### SEVEN STILLS DESTROYED.

U. S. Agents Arrest 5 and Wreck Alabama's Largest "Plant."

BIRMINGHAM, Ala., Jan. 26. - The rgest "moonshine" establishment ever largest "moonshine" establishment ever found in Alabama, composed of saven stills ranging in capacity from 125 to 250 gallons, was discovered and de-stroyed by prohibition enforcement officers yesterday in the hills near Pelham, twenty miles south of here.

The raiding officers destroyed 13,500 gallons of mash and arrested five men. The stills were in full blast when the raiders ran upon them. The officers said it was from this "plant" that Birmingham's supply of corn liquor has been coming. It brings \$25 a gallon here now.
